We have audited the accompanying combined financial statements of Developmental Disabilities Institute, Inc. and Affiliate (collectively, the "Institute and Affiliate"), which comprise the combined statement of financial position as of December 31, 2015, and the related combined statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Developmental Disabilities Institute, Inc. and Affiliate as of December 31, 2015, and the results of changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have audited the Institute and Affiliate's 2014 combined financial statements and our report, dated May 28, 2015, expressed an unmodified opinion on those audited combined financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2014 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Notes to Combined Financial Statements

1. Principles of Combination

The accompanying combined financial statements include the accounts of Developmental Disabilities Institute, Inc. (the "Institute") and DDI Foundation, Inc. (the "Foundation") (collectively, the "Institute and Affiliate"), which are related by certain common members of the Board of Directors and identical management.

All intercompany balances and transactions have been eliminated in combination.

2. Nature of the Organizations

- (a) The Institute is a New York State not-for-profit corporation which operates health, education and residential facilities for the therapeutic education, guidance and training of developmentally disabled children, adults and their families. The Institute also operates Diagnostic and Treatment Centers, which are licensed by the New York State Department of Health under Article 28 of the Public Health Law to provide rehabilitative, therapeutic, medical and dental services primarily for developmentally disabled children and adults. The Institute is exempt from Federal, state and local income taxes under Section 501(c)(3) of the Internal Revenue Code (the "Code"), and therefore has made no provision for income taxes in the accompanying combined financial statements. In addition, the Institute has been determined by the Internal Revenue Service not to be a "private foundation" within the meaning of Section 509(a) of the Code. There was no unrelated business income for the year ended December 31, 2015.
- (b) The Foundation is a New York State not-for-profit corporation that was established May 31, 1988 and began operations October 1, 1990. The Foundation is organized and operated exclusively for charitable, scientific and educational purposes. Consistent with the foregoing, its specific purpose is to promote and support the activities of the Institute. The Foundation maintains certain common board members with the Institute. The Foundation is exempt from Federal, state and local income taxes under Section 501(c)(3) of the Code and, therefore has made no provision for income taxes in the accompanying combined financial statements. In addition, the Foundation has been determined by the Internal Revenue Service not to be a "private foundation" within the meaning of Section 509(a) of the Code. There was no unrelated business income for the year ended December 31, 2015.

3. Summary of Significant Accounting Policies

(a) Basis of Presentation

The combined financial statements of the Institute and Affiliate have been prepared on the accrual basis. In the combined statement of financial position, assets and liabilities are presented in order of liquidity or conversion to cash and their maturity resulting in the use of cash, respectively.

(b) Financial Statement Presentation

The classification of the Institute's net assets and its support, revenue and expenses is based on the existence or absence of donor-imposed restrictions. It requires that the amounts for each of three classes of net assets, permanently restricted, temporarily restricted, and unrestricted, be displayed in a statement of financial position and that the amounts of change in each of those classes of net assets be displayed in a statement of activities.

Notes to Combined Financial Statements

These classes are defined as follows:

- (i) Permanently Restricted Net assets resulting from contributions and other inflows of assets whose use by the Institute is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Institute.
- (ii) Temporarily Restricted Net assets resulting from contributions and other inflows of assets whose use by the Institute is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Institute pursuant to those stipulations. When such stipulations end or are fulfilled, such temporarily restricted net assets are reclassified to unrestricted net assets and reported in the combined statement of activities.
- (iii) Unrestricted The part of net assets that is neither permanently nor temporarily restricted by donor-imposed stipulations.

(c) Cash and Cash Equivalents

The Institute and Affiliate consider all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents.

(d) Assets Limited as to Use

Assets limited as to use consists of cash held in banks for future contributions to the pension plan and future workers compensation claims.

(e) Provision for Doubtful Accounts

The Institute and Affiliate provide an allowance for doubtful accounts for accounts receivable which are specifically identified by management as to their uncertainty in regards to collectability. As of December 31, 2015, the total allowance for doubtful accounts is \$441,134.

(f) Investments at Fair Value

Accounting Standards Codification ("ASC") 820, "Fair Value Measurement", defines fair value, establishes a framework for measuring fair value and expands the disclosures about fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or unobservable. ASC 820 established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The standard requires that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Institute and Affiliate classify fair value balances based on the fair value hierarchy defined by ASC 820 as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Notes to Combined Financial Statements

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement

Investment income is recognized when earned and consists of interest and dividends. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis.

(g) Income Taxes

The Institute and Affiliate were incorporated in the State of New York and is exempt from Federal and state income taxes under Section 501(c)(3) of the Code and, therefore, have made no provision for income taxes in the accompanying combined financial statements. In addition, the Institute and Affiliate have been determined by the Internal Revenue Service not to be "private foundations" within the meaning of Section 509(a) of the Internal Revenue Code. There was no unrelated business income for the year ended December 31, 2015. Management believes that the Institute and Affiliate are no longer subject to income tax examinations for years prior to 2012.

Under ASC 740, an organization must recognize the tax benefit associated with tax positions taken for tax return purposes when it is more likely than not that the position will be sustained. The Institute and Affiliate do not believe there are any material uncertain tax positions and, accordingly, they will not recognize any liability for unrecognized tax benefits. The Institute and Affiliate have filed for and received income tax exemptions in the jurisdictions where they are required to do so. Additionally, the Institute and Affiliate have filed Internal Revenue Service Form 990 tax returns, as required, and all other applicable returns in jurisdictions when it is required. For the year ended December 31, 2015, there was no interest or penalties recorded or included in the combined statement of activities.

(h) Fixed Assets

Fixed assets are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements and equipment under capital leases are amortized over the shorter of the lease term or the estimated useful lives of the related assets.

	Years
Buildings	18-40
Building improvements	5-40
Furniture and fixtures	4-20
Equipment and vehicles	3-15

(i) Impairment of Fixed Assets

The Institute and Affiliate review fixed assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the future cash flows from the use of the asset are less than the carrying amount of that asset. As of December 31, 2015, there have been no such losses.

Notes to Combined Financial Statements

(j) Contributions and Pledges Receivable

Contributions and pledges receivable, including unconditional promises to give, are recognized as revenues in the appropriate category of net assets in the period received. Promises to give are recorded at the present value of estimated future cash flows, based on an appropriate discount rate at the time of the gift. Amortization of the discount in subsequent years is included in contribution revenue. Contributions of assets other than cash are recorded at their estimated fair value at the date of the gift. Contributions for capital projects are reported as nonoperating revenues. Conditional contributions, including conditional promises to give, are not recognized until the conditions are substantially met.

Unconditional promises to give are recorded in the combined financial statements at present value using a discount rate which represents risk-free interest rates applicable to the years in which promises are received. For the year ended December 31, 2015, the Institute and Affiliate used a discount rate of 3%.

Contributions receivable consist of \$172,306 for the capital campaign and \$19,937 for pledges receivable at December 31, 2015.

The capital campaign represents funds donated to the Institute and Affiliate for the purpose of renovations of the Little Plains School located in Huntington, New York and expenses related to the capital campaign.

(k) Deferred Costs

Deferred costs consist of debt issuance costs and deferred start-up costs. Debt issuance costs are deferred and amortized using the straight-line method over the term of the related debt. Deferred start-up costs are amortized using the straight-line method over a five-year term in accordance with the reimbursement period of the costs to acquire those assets. As of December 31, 2015, the total accumulated amortization for debt issuance costs and deferred costs is \$1,550,878.

(I) Third-party Reimbursements and Revenue Recognition

The Institute receives substantially all of its revenue for services provided to approved clients from third-party reimbursement agencies; primarily the Office for People With Developmental Disabilities ("OPWDD"), Department of Health and the State Education Department of New York. These revenues are based on predetermined rates based on cost reimbursement principles and are subject to audit and retroactive adjustment by the respective third-party fiscal intermediary. The financial statement impact of such adjustments is recognized in the period in which the retroactive adjustment occurred.

Revenue is recognized as earned from third parties and when received or pledged for contributions, special events and fundraising activities.

(m) Allocation Methodology

Common costs incurred for the administration of the various programs are allocated directly to respective programs as incurred and/or utilizing predetermined allocation rates established by management.

(n) Concentration of Credit Risk

Financial instruments which potentially subject the Institute and Affiliate to concentration of credit risk consist primarily of cash and cash equivalents. At various times, the Institute and Affiliate have cash deposits at financial institutions, which exceed the Federal Depository Insurance Corporation insurance limits.

Notes to Combined Financial Statements

(o) Use of Estimates

The preparation of the combined financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(p) Comparative Financial Information

The combined financial statements include certain prior year summarized comparative information. With respect to the combined statement of activities, the prior year information is presented in total, not by net asset class. With respect to the combined statement of functional expenses, the prior year expenses are presented by expense classification in total rather than functional category. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Institute and Affiliate's combined financial statements for the year ended December 31, 2014, from which the summarized information was derived in total but not by net asset class.

(q) Recently Adopted Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-02, "Accounting for Leases", which applies a right-of-use ("ROU") model that requires a lessee to record, for all leases with a lease term of more than 12 months, an asset representing its right to use the underlying asset and a liability to make lease payments. For leases with a term of 12 months or less, a practical expedient is available whereby a lessee may elect, by class of underlying asset, not to recognize an ROU asset or lease liability. At inception, lessees must classify all leases as either finance or operating based on five criteria. Balance sheet recognition of finance and operating leases is similar, but the pattern of expense recognition in the income statement, as well as the effect on the statement of cash flows, differs depending on the lease classification. In addition, lessees and lessors are required to provide certain qualitative and quantitative disclosures to enable users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The amendments are effective for fiscal years beginning after December 15, 2019. Management is currently evaluating the impact of the pending adoption of ASU 2016-02.

(r) Reclassifications

Certain prior year balances have been reclassified to be consistent with the current year financial statement presentation.

4. Investments and Assets Limited as to Use

The cost and respective fair values of investments at December 31, 2015 are as follows:

Notes to Combined Financial Statements

The Institute and Affiliate's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. See Note 2 for a discussion of the Institute and Affiliate's policies regarding this hierarchy. A description of the valuation techniques applied to the Institute and Affiliate's major categories of assets measured at fair value is below.

The Institute and Affiliate have investments in common stock, treasury obligation and money market funds. The Institute and Affiliate's custodian prices these investments using nationally recognized pricing services. The Institute and Affiliate's common stock, Federated Treasury Obligations Fund and debt service reserve fund are classified as Level 1 of the fair value hierarchy.

The following table shows, by level within the fair value hierarchy, the Institute and Affiliate's financial assets that are accounted for at fair value on a recurring basis as of December 31, 2015. The financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Institute and Affiliate's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy levels. There have been no changes in the levels from the prior year.

8. Workers' Compensation Reserve

DDI was previously a member of the now terminated and insolvent Community Residence Insurance Saving Plan Self-Insurance Trust for Workers' Compensation ("CRISP"). Due to financial deficits, the Workers' Compensation Board ("WCB") of New York State assumed the administration of CRISP. WCB has been charged with facilitating the extinguishment of the liabilities of the trust and performed a review to reconstruct and allocate the deficit among CRISP's former members. DDI received an assessment based on this review for fiscal years 2006-2011. Former CRISP members retained counsel and negotiated an MOU with the WCB. The terms of the MOU called for DDI to pay a monthly amount of \$28,102. On the advice of counsel, DDI, and other former CRISP members involved with the MOU, stopped making these monthly payments. The WCB has offered a settlement agreement which is currently being negotiated upon by counsel. DDI's exact liability cannot be determined at this time. As such, provision for the amount of the full liability has not been recorded in the accompanying combined financial statements.
